

Please Forward/Share with any potentially interested teacher/school/team!

Please reserve these dates as possible summer work dates for Information Technology and possibly Arts/Audio Visual pathway competency development and crosswalk dates.

June 3–5
and
June 22–23

It is important that I have your summer email address and an awareness of your interest in participating on these workdays. Feel free to email me to bring that information up to date.

While we will include as many people as possible, it will be important that all sizes of schools, all areas of interest, and teachers currently teaching in those areas are represented. I would encourage you to share with me those you respect and trust to represent you [should you be unable to attend], and particularly those not in your school or district you could highlight as potential committee members beyond your site team.

As you share your interest, please highlight the following:

- Size of school and general [possibly KBOR] region
- Skills or specialties within the course areas [ie Programming in C++, Cisco Networking, Help Desk experience, Adobe Certification, Microsoft Certification, ... if you can imagine it as a specialized skill, it probably is ...]
- Years in the field/CTE

Development of Information Technology pathways is a primary priority.

IT Pathways:

Information Support and Services
Network Systems
Programming and Software Development
Web and Digital Communications

Arts/AV Pathways:

Audio and Video Technology
Visual Arts

Thank you! << OLE Object: Picture (Device Independent Bitmap) >>
