

Safety Tips

Never go out alone.

- You are less likely to become a victim if you're in a group.
- Be a good friend. Keep your friends from making poor decisions.

Avoid wearing expensive clothing and jewelry.

- Do not draw unwanted attention to yourself.

Do Not carry large amounts of cash and credit cards.

- Many hotels have safes in the rooms or at the front desk. Keep your valuables in them.

If You Go Abroad

Laws may be different than the US.

If you are accused of or a victim of a crime, contact the US Embassy or Consulate Office.

Different areas of the world may hold different threats to your safety. Check the Department of State's web site <http://travel.state.gov> for travel advisories for the country you plan to visit.

Spring 2011

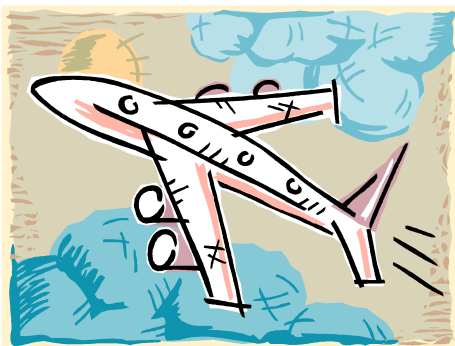

Have a Fun and Safe Spring Break

Alcohol and Spring Break

Sexual Assault

Prior to leaving for spring break:

- Lock your residence.
- Park your vehicle in a well lit area and do not leave any personal items in plain view.
- If you live in an apartment, have your mail and newspapers stopped or have a friend or neighbor pick it up.
- Record the serial numbers on all of your valuable items and keep the list in a safe place.
- Make sure someone knows where you are going and when you expect to return.

Many of the laws in Kansas are the same as for the rest of the continental United States.

- All States - the drinking age is 21.
- All States have laws against drinking and driving.
- All States have laws against open containers in a vehicle.
- Most cities in the US have laws about where the consumption of alcohol is allowed
- Just because you have heard friends talk about what they did at spring break does not mean that it is legal. If you try to do it, you might get caught.
- Most jurisdictions will hold an individual who lives out of state (even for a misdemeanor) in jail until you appear before a judge or until you can post a cash bond. You could also be required to return to the jurisdiction where you were charged for court.

Most Assaults are committed by an acquaintance of the victim.

- Stay in groups of people you trust.
- Do not go out alone on a date with a person you have only known a day or two.

Remember about date rape drugs:

- Most are odorless and tasteless.
- Always watch the bartender make or pour your drink.
- If you start to feel more intoxicated than normal or start to feel faint, ask your friends to take you somewhere safe.
- Never drink from a glass that was left unattended.
- If you think you have been a victim, contact the authorities immediately.
