

## Bicycle Security & Safety

Thousands of bicycles are ridden and stored on campus every day. Unfortunately they appeal to thieves. There were 15 bicycles stolen on the KU Campus in 2004. Here are some tips to keep your bicycle from being included in this years figure.

- 🔔 Record your bicycle's make, model and serial number and keep it in a safe place.
- 🔔 Secure your bicycle with a good quality U-shaped lock. Most bicycles stolen on campus were not locked or were locked by chain or cable locks.
- 🔔 Lock your bicycle to a solid object, like a bicycle rack.
- 🔔 The bicycle should be locked through the frame and the front wheel.
- 🔔 Bicycle seats can also be stolen. Remove the seat and take it with you if the seat might be prone to theft.
