

Recommendations for Changes from the 2002 Faculty Debriefing

- Increase the amount of payment to the student from \$25 to \$40 to entice students to participate.
- Drop the two-page essay from students on, “What three courses had the greatest impact on you?”
- Hold interviews on week 7 of the semester rather than week 8 (the week prior to Spring Break) to help avoid conflicts with due dates for mid-term exams and projects.
- Start the interviews at 6:30pm rather than 7:00pm to build in a few more minutes for faculty to complete the rating forms at the conclusion of the interviews.
- Include information on which students have participated in Study Abroad, because it is an experience that distinguishes the better performing students.
