Highlights for Students in the School of Engineering

Survey Information

The Graduate and Professional Student Survey (GPSS) was administered online to currently enrolled graduate students in Spring 2005. A link to the survey was emailed to 570 Lawrence and Edwards campus degree-seeking graduate students in the School of Engineering. We received 142 valid responses, for a response rate of 24.9%.

Not all respondents answered all of the questions. Percentages for each question are based on valid responses.

The survey was developed by the AAU Data Exchange to be administered by member institutions with the intent that the data would be available for comparative analyses.
